Safe Harbor Statement

Certain matters discussed in these slides and accompanying oral presentation have "forward-looking statements" intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements may generally be identified as such because the context of such statements will include words such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "should," "will," "would" or words of similar import. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking statements. Such forward-looking statements are subject to risks, uncertainties and other important factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, our ability to integrate the Webroot Inc. acquisition or other acquisitions into our operations and achieve the expected operational and financial benefits of such acquisitions and the timing of such benefit, our ability to profitably attract new customers and retain existing customers, our dependence on the market for cloud backup services, our ability to manage growth, changes in economic or regulatory conditions or other trends affecting the Internet and the information technology industry, and those discussed in the section titled "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018 filed with the Securities and Exchange Commission (the "SEC"), which is available on www.sec.gov, and elsewhere in any subsequent periodic or current reports filed by us with the SEC. Except as required by applicable law, we do not undertake any obligation to update our forward-looking statements to reflect future events, new information or circumstances.

This presentation contains non-GAAP financial measures including, but not limited to, non-GAAP Revenue, non-GAAP Gross Margin, non-GAAP Net Income and non-GAAP Net Income Per Share, Adjusted EBITDA and Adjusted Free Cash Flow. A reconciliation to GAAP can be found in the financial schedules included in our most recent earnings press release located on Carbonite's website, <http://investor.carbonite.com>, in the Company's filings or with the SEC at www.sec.gov. The presentation of non-GAAP financial information should not be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

*With respect to expectations under "Outlook" above, the Company has not reconciled non-GAAP net income per share to net income per share because we do not provide guidance for stock-based compensation expense, litigation-related expense, restructuring-related expense, acquisition-related expense, amortization expense on intangible assets and the income tax effect of non-GAAP adjustments as we are unable to quantify certain of these amounts that would be required to be included in the GAAP measure without unreasonable efforts. In addition, the Company believes such reconciliations would imply a degree of precision that would be confusing or misleading to investors.
